What People Are Saying...

"Dear Friends: I can speak enthusiastically about City on the Hill and its programs to educate young people about the political process in the Legislature and its impact on their lives. But the real testimonials are from the young people who have participated and rave about the experience. They meet many fellow young believers and receive deep insight into the political and legislative process that impacts every aspect of their personal, social, economic, and spiritual lives. All of us who see what is happening in this country today from actions by elected officials should support City on the Hill's goal to build an army of citizens armed with the facts, comfortable in the knowledge, and articulate about our rights and liberties protected in our state and federal constitutions so they can hold our officeholders and candidates accountable."

CA Assemblywoman Shannon Grove

"COTH was one of the most important conferences I ever attended. It ignited my interest in government and public policy, and gave me hands-on training in the legislative and political processes. City also equipped me to maintain a strong Christian witness as I work in politics. I still have life-long friends that I made at City. I highly recommend every young person attend City to learn how they can make their voice heard in government."

Meredith T. - Austin, Texas

Director of Strategic Communications, State Policy Network

COTH Student 1996, 1997

"City on the Hill was without a doubt my favorite experience in high school. It was fun and engaging and taught me how fascinating politics really is. City changed my life and is without a doubt the reason I decided to major in public policy."

Evan G. - Rocklin, California

William Jessup University Graduate, Majored in Public Policy

COTH Student 2010, 2011

"My son came home from COTH last year and couldn't stop talking about how amazing his experience was at City on the Hill. COTH is a great opportunity for any youth to learn leadership skills along with how our government functions. I highly recommend sending your youth; they will learn how to incorporate their Biblical worldview into every day practical issues. I have seen youth transformed to stand for Biblical issues in the political arena."

Shadrach Means, High School Pastor, Calvary Chapel Chino Hills

"The highlight of my 2016 summer was definitely the City on the Hill youth camp. Before I attended, I knew politics was my calling and I already had a heart full of passion for that profession. As I experienced COTH, working with a team to pass real life bills on the assembly floor in Sacramento, being interviewed for crucial talking points on behalf of our assigned party and learning what it means to be more of a leader was a priceless involvement—but it didn't stop there. Not only did I experience a hands-on change, I felt it in my heart. My calling was reconfirmed to me as I participated in COTH. I remember thinking to myself, 'This is really what I want to do for the rest of my life.' COTH taught me how to be a bright flame burning in a world of dismal darkness—to be that City on a Hill just where I am."

-Ashley W.

Future student at Cal Baptist University, dual majoring in Political Science and History

COTH Student 2015
